

Environmental Policy Statement

Vitec Webber Lenihan will assess, review, monitor and control the environmental aspects associated with its daily operations in accordance with the current standards and legislation.

We shall provide adequate training to all our staff to ensure that they conduct their daily activities in an environmentally responsible manner with continuous improvement.

Vitec will endeavour to ensure the efficient use of energy resources, and wherever possible we shall work with and use suppliers who possess a formal environmental management system, or suppliers who are progressing towards one.

We shall encourage our suppliers and our staff to be open and to communicate with the public all aspects regarding environmental issues, and to provide where necessary all information regarding our environmental performance.

Responsibility for environmental protection through the implementation of this policy rests with all levels of management and all categories of employee.

This environmental policy statement applies to all Vitec Webber Lenihan projects.

A handwritten signature in blue ink, appearing to read "G Harris", is positioned above the printed name.
